Effective Interventions for Disruptive Mood Dysregulation Disorder (DMDD)

Friday, January 30, 2015

8:30 am -11:45 am (8:00 am Check-in & Continental Breakfast)

Beaver Creek Country Club

9535 Mapleville Rd, Hagerstown, MD 21740

Disruptive Mood Dysregulation Disorder is a new DSM-5 diagnosis under the depressive disorder category. This diagnosis was included to address concerns about the potential for over-diagnosis of bipolar disorder in youth. DMDD is distinguished by severe and frequent temper tantrums that impair their ability to function at home, in school or with their friends. This seminar will explore the characteristic behavioral disturbances of DMDD, diagnostic criteria, differential diagnosis and provide practical, effective strategies and interventions. Distinguishing characteristics and similarities between DMDD, bipolar disorder (BD) and oppositional defiant disorder (ODD) will also be covered.

At the conclusion, attendees will be able to:

- Describe age-related behavioral indicators for DMDD;
- Outline the diagnostic criteria of DMDD;
- Differentiate between DMDD, ODD, BD;
- Explain various treatment options including the use of medications;
- Implement treatment plans for improved functional behavior.
